

PUBLIC RELATIONS

"BEAUTY BEGINS THE MOMENT THE MOMENT YOU DECIDE TO BE YOURSELF."

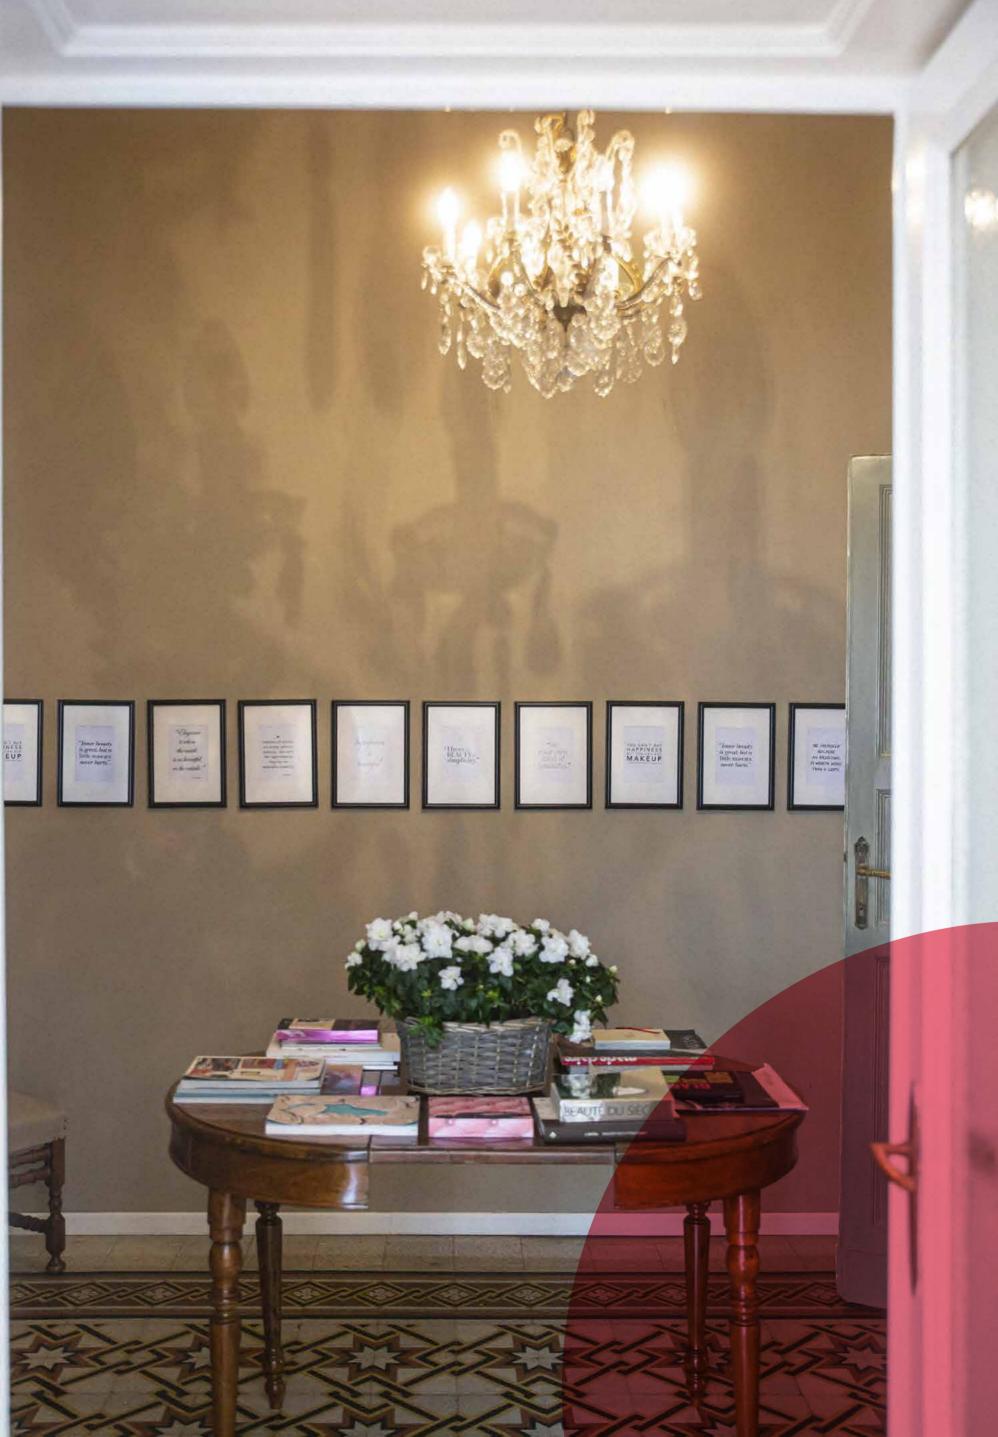

In **2012**, after a consolidated career path in multinational companies, we founded F.A Studio with the idea of creating a *boutique agency*.

The goal is to maximize brand awareness and grow together. Our commitment is to support the client firsthand, without intermediaries, offering personalized strategies. We enjoy building **strong and lasting partnerships** with clients, with dedication, creativity, and passion.

We are committed to understanding the philosophy and mission of each brand, to convey its **storytelling**, values, and products with the utmost attention and care for details.

> We establish trusting relationships with the target audience: intriguing and informing our network of **journalists**, **influencers**, **creators**, **and trend-setters**, constantly keeping them updated.

The goal is to maximize the **brand awareness** and grow together.
